There was a good update on the Citizens' Task Force last week in the paper. It was informative story in this time of transition in our state and Sitka.

I have not followed this process very much so I might be jumping the gun, but I'd like to point out what I hope is not the elephant in the room .That being the Sitka Community Hospital and its part in Sitka's financial situation. The Assembly and this task force cannot leave out this part of the puzzle.

We are coming into very rough and uncharted territory as you all know. All the cards need to be on the table to make informed decisions in dealing with our economic future.
