

Kattleson Memorial Library Board of Commissioners
May 13, 2015
Special Meeting

Board President Curt Ledford called the meeting to order with commissioners Cindy Litman, Barbara Bingham, Alice Johnstone, Jan Love, and library director Robb Farmer in attendance.

The special meeting was called to discuss the issue of changing the name of Kattleson Memorial Library. Several community members attended the meeting and shared their opinions and insights. Bill Foster shared history of the library's name and comparisons to other community library names to support his position that now with the ongoing library expansion is the time for a name change.

The group decided to form an action plan to get more input from the community. Jan Love will pursue surveying the School District staff by e-mail, Robb put information in the newspaper, and all those present will talk to people in town. The choice put to the community will be to keep Kattleson Memorial Library or change to Sitka Public Library. The group consensus was to find out how the community feels about changing the name before moving forward.
