September 5, 2017

Public Service Announcement

Our customers on Wachusets Street experienced an outage yesterday (9/4/2017) from 11:16AM through 2:30PM when a pole top transformer failed during the storm. This impacted about six customers. The transformer was replaced and the line was returned to service. Additionally, due to the landslide near the 4400 block of HPR, the power was cut to customers from Granite Creek to the north end of town from 11:30AM through 7:29PM. This outage was to provide a safe working condition for the crews cleaning the roadway. The power was restored for a short period during that outage from 1:47PM to 2:39PM to provide our customers a window of power for refrigeration and regular needs. We should all thank DOT, our City Workforce and our volunteers for getting this work done safely and quickly.

Again, we want to thank our customers for their patience and support.
