Date: March 28, 2006

To: Distribution

From: C. Mike Prewitt, for Charlie Walls

Subject: Transmittal of Final License Application, Blue Lake Project, FERC No. 2230.

Enclosed please find a CD containing the Subject Final License Application (FLA) material. This is an electronic version of the hard copy FLA sent by the City and Borough of Sitka Electric Department ("City") to the Federal Energy Regulatory Commission (FERC) Office of Energy Projects on March 27, 2006.

The CD has subdirectories containing: 1) Exhibits A, B, C, D, F, G and H; 2) the Final Draft Environmental Assessment (FDEA); and 3) the transmittal letter to FERC described above. The FDEA incorporates comments received on the Preliminary Draft Environmental Assessment distributed for participant review in June, 2005.

FERC licensing regulations do not require your immediate review of the material in this submittal. The FERC staff will review the FLA for adequacy and may request additional information from the City prior to the onset of FERC's independent environmental analysis. Once the FLA is considered adequate, the FERC will place a notice in the federal register stating that they are ready to begin their analysis and requesting interventions.

Although you are not required to comment on this submittal, please do not hesitate to contact Charlie Walls at 907-747-1870 or at charlie@cityofsitka.com if you have questions or comments.

Thanks for your continued participation in the Blue Lake Project relicensing.

C. Mike Prewitt, relicensing consultant, *for*
Charles Walls, Utility Director.
