## DEFINED CONTRIBUTION PLANS

### **Did you know fiduciary advice and planning is included as a part of your retirement?**

**It is always important to review your retirement strategy periodically to make sure you stay on track for your future. That is true now even during these times of market volatility.**

**And, you don't have to do it alone. While we can't meet face-to-face currently, I am available to meet with you over the phone or by videoconference. It is a great way to stay connected during these uncertain times.**

#### **During the meeting, we will:**

- Answer your questions during these times of market volatility and see whether any changes in your strategy are appropriate to keep you on track for your future.
- Review your savings level and investments and determine whether it might be appropriate to make any changes.
- Help you determine a possible retirement age if you're considering retirement in the near future.
- Help you look at all of your income sources to give you a complete picture of your progress towards your future needs.
