

Biographical Information

My name is Kevin Mosher. I have lived in Sitka for the last thirty-one years. I met my wife Theresa in 1997 and we have five adult children. We both earned Bachelor's Degrees in Business Administration from UAS Southeast while we were raising our children. I was a stay-at-home dad when our kids were young, before starting my career in accounting. I have worked in the field for almost seventeen years, including nearly thirteen with my current employer, Shee Atiká Incorporated. Having served on the city Assembly for the previous six years, I've decided to serve again, should Sitkans elect me. I have experienced the economic challenges of raising a family in Sitka. Continuing to promote community affordability and economic growth is my primary motivation for serving on the Assembly. I am a practical non-partisan with a track record of consensus-building and problem-solving.

Advocacy Statement

Hello, my name is Kevin Mosher. I am asking for your vote as I run for my third term on the Sitka Assembly. Over the past six years, I have worked to decrease the cost of local government, to foster sound fiscal management of city resources, and to help Sitka businesses grow by supporting our maritime industries, fostering year-round tourism, and leveraging Sitka's historical and cultural resources.

Since 2022, there has been a dramatic increase in seasonal visitors in Sitka. Although this has created challenges, it has come with huge benefits for our community, including growth in private businesses, employment, and profits, and increased sales tax receipts. The Assembly has responded by increasing support for our schools and other important city services. We convened a Tourism Task Force to make recommendations on managing challenges, approved their recommendations, and directed the staff to enact them. I am confident that these actions, including a new Tourism director staff position, will help us mitigate the negative effects of tourism going forward.

The most important thing I've learned in my first two terms is the value of teamwork. I have good relationships and open lines of communication with all of my fellow Assembly members and our town administrator. We are pushing hard to get projects completed that will increase the City's financial stability, which in turn will help residents. If re-elected, I will continue to advocate for fiscal responsibility and economic growth, positively, collaboratively, as a member of a team!
